

Northeast Compact ~ Excellence in Wildfire Prevention Award

Melanie Morin - Communications, SOPFEU, Québec

For her work on the NortheastWildfire.org website. Melanie is not a Prevention Working Team (PWT) member, but has been allowed to manage and guide the PWT members in its development of the website. Many thanks go to her immediate supervisor, Gérard Lacasse and Québec's SOPFEU Fire Agency in allowing her the time to use her skills to benefit the PWT and the Compact. She has gone far out of her management role to accomplish this. Melanie has written and developed course content and has done much to encourage and guide compact members towards a positive result. Many of her remaining hours/days at SOPFEU before taking maternity leave involved 'polishing up' rough website materials sent her and working with the webmaster hired to place all items on our new site. Melanie's professionalism and drive has earned her the 2010 PWT's **Excellence in Wildfire Prevention** Award.
